**Anonymous:**

"I am scared we are selling our railroad system to another country and can not regulate it anymore. Anyone can buy it in Canada, possibly bringing terrorists to our backyard. This is neglectful of our safety, sovereignty, and our economy. This will literally be in our backyard. We have no borders, no fence, and no guard dogs. Northern and Southern borders should have mandates. Our leaders are selling us out for their own personal gain. They are not entitled to it and did not work for it. They are selling us out at a rapid speed and one day there will be no United States. There are two quotes: "We will destroy ourselves from within" and "America will be taken over taken over with a single world" (saying from late 60's early 70's.) Our elected officials, every single one needs to be investigated and suffer the consequences of their deeds. We need to keep railroads safe, secure and in U. S. hands no matter how much money is involved. America First."
